

# 915

## Zirconia Flap Discs

The 915 100% Zirconia Flap Discs are applicable in metal and INOX sanding. Manufactured with fibreglass pads, with attached flaps of high-quality abrasive cloth, this line is suitable for weldings smoothing, surface flattening and edge rounding, with outstanding sanding output and higher cutting rates.

### Technical specifications

<b>Applications</b>	Metal
<b>Backing</b>	X-Poly-cotton Cloth
<b>Bonding</b>	Resin over resin
<b>Coating</b>	Closed
<b>Grit options</b>	P36 - P120
<b>Grain</b>	100% Zirconia

## Zirconia Alumina Grain

Zirconia alumina forms a very tough, self-sharpening grain, providing long lifespan and excellent and consistent performance, even on the most demanding surfaces.

## Fast Cutting Rate

Zirconium alumina grain offers fast-cutting rate and excellent grinding output.

## Conical Design

The conical design of the flap disc provides an aggressive stock removal performance thanks to the greater surface contact.
